Abstract (en)

[origin: EP3262972A1] The present invention relates to a mascara container provided with a moving wiper, more specifically the mascara container consisting of a dual wiper structure including a brush wiper coupled to the upper portion of a container body and a brush rod wiper surrounding and being slidably coupled to the outer circumferential surface of a brush rod, thereby keeping the cleanliness of the brush rod by wiping away contents adhered to a brush by means of the brush wiper in the process of withdrawing a mascara part from the container body, as well as wiping away contents adhered to the outer circumferential surface of the brush rod by means of the brush rod wiper.
