Abstract (en)  
[origin: WO2016139237A1] The invention relates to a furniture fitting for connecting furniture parts, in particular of upholstered furniture, having a first fitting part (10), which can be fastened on a first furniture part, and a second fitting part (20), which can be fastened on a second furniture part. The furniture fitting is distinguished in that - the first fitting part (10) has a base (110) and two pins (12, 13), which are arranged parallel to one another and parallel to the base, wherein - a first of the pins (12) is fixed to the first fitting part (10) and a second of the pins (13) is mounted such that it can be displaced relative to the first pin (12), counter to a force of an energy store, in a direction perpendicular to the pins (12, 13), and - the second fitting part (20) has a first and a second mount for the first and second pins (12, 13), wherein the second fitting part (20) can be positioned on the first pin (12), and can be pivoted about the first pin (12), by way of the first mount and the second pin (13) latches into the second mount during pivoting, so that the two fitting parts (10, 20) are connected to one another. The invention also relates to a piece of furniture which has at least two furniture parts, and has at least one such furniture fitting for connecting the at least two furniture parts.
