Abstract (en)

[origin: WO2016139071A1] The invention relates to a user assistance system (20) of a preparation device (4) for cleaning and disinfecting at least one surgical instrument (28) arranged in a cleaning basket (6), wherein the user assistance system (20) is upgraded in that at least one electronically controlled display device (16a-16d) and a control unit (22) coupled thereto are included, wherein the display device (16a-16d) is integrated into a loading station (14) and is equipped for arranging the cleaning basket (6) on one side of the display device (16a-16d) during loading of the cleaning basket (6), and wherein the control unit (22) is designed to control the display device (16a-16d) in such a way that image information, which displays a predetermined arrangement of the surgical instrument (28) to be prepared in the preparation basket (6), is displayed in actual size and position.
