Abstract (en)

[origin: EP3267403A1] A banknote storage cassette (30) includes a plurality of storage/feeding mechanisms (for example, a first storage/feeding mechanism (32) and a second storage/feeding mechanism (42)) for sending a banknote one by one from an outside of a storage unit to an inside to store the banknote in the storage unit and feeding out the banknote stored in the storage unit to the outside of the storage unit one by one. Feeding directions of the banknote by the storage/feeding mechanisms are different from each other.
