Abstract (en)
[origin: WO2016142530A1] The invention relates to a seat furniture chassis (100) which comprises an extendable and retractable leg and/or foot rest (101), a seating surface support frame (103), a drive means (107), and conversion means designed to convert an angular momentum generated by the drive means (107) into an extension and/or retraction motion of said foot rest (101), the conversion means comprising a shaft (108) which can be driven by the drive means (107) and is arranged parallel to a rear frame section of said seating surface support frame.
