Abstract (en)
A webbing (10) includes a base (11) made by interlacing main warps (M) and wefts (W); and thin warps (A-C, a-c) that are woven into the base (11). On the surface of the webbing, the thin warps (A-C, a-c) cover the main warps (M). The main warps (M) meander so as to pass over odd-numbered wefts (W) and to pass under even-numbered wefts (W). On the upper side of the webbing, the thin warps (A-C) cover the main warps (M) of the base (11). On the lower side of the webbing, the thin warps (a-c) cover the main warps (M) of the base (11).
