Abstract (en)

[origin: WO2016146737A1] The accessory to facilitate the grip of a tool, sport equipment or ball, comprising a sheet of shaped synthetic material, with a first surface, onto which a pressure sensitive adhesive is applied, suitable to adhere to the skin, and a second surface, opposite to the first surface. The device comprises a central portion shaped and sized approximately like a hand palm, and a plurality of appendices that extend from a perimeter edge of the central portion and are configured to adhere, by means of said adhesive, to the back of a hand;
