Abstract (en)

[origin: WO2016151391A1] Disclosed is a retaining device (2) for retaining a number of plugs (4) and for arranging on a wall passage. The retaining device (2) comprises a number of substantially identically sized through-holes. A modular element (6) comprises an outer interface region for receiving the modular element (6) in one of the through-holes. The modular element (6) comprises an inner interface region for receiving one of the plugs (4) in the modular element (6).
