Abstract (en)
A banknote cash unit (1000) capable of securely sealing an opening (10) of a storage bag (1) is disclosed. The storage bag (1) has a first fixation tab (11) and a second fixation tab (12). The opening (10) is defined between the first fixation tab (11) and the second fixation tab (12). The banknote cash unit (1000) includes a housing (2), a banknote inlet unit (3) and a paper sheet storing unit (4). The banknote inlet unit (3) is disposed on the housing (2). The paper sheet storing unit (4) is installed in the housing (2) and for holding the storage bag (1). The paper sheet storing unit (4) includes a first sealing module (40) and a second sealing module (41) disposed next to the first sealing module (40). When the second fixation tab (12) is closed to the first fixation tab (11), the first sealing module (40) generates a first sealing portion (D) and the second sealing module (41) generates a second sealing portion (E) for combining the first fixation tab (11) and the second fixation tab (12).
