Abstract (en)

[origin: WO2016156719A1] The invention relates to a tyre (1) comprising a tread (8), said tyre including at least one groove (2) having a groove bottom (10), and at least one wear indicator (3) disposed in the groove (2). The wear indicator comprises a contact surface (7) that is intended to come into contact with the road when the tyre reaches a wear limit, said contact surface (7) of the wear indicator comprising a texture which is of the same material as the contact surface and which contrasts with the bottom (10) of the groove (2).
