Abstract (en)

A description is given of a die-cutting device (100) for die cutting at least one tubular film or a strip of bags (50) with side gussets (51) comprising a die-cutting blade (7) suitable for forming an opening (52) on said tubular film (50) and blocking means for blocking said tubular film (50), where said blocking means are formed by an outer plate (5) and an inner plate (10), coaxial one to the other, which enclose said cutting blade (7) and are opposite to a counter plate (1) so as to block the two surfaces of said film (50), said two coaxial plates (5, 10) being mounted on elastic means (12, 12').
