Abstract (en)

[origin: CN107723854A] The invention relates to a cleaning device for cleaning a spinning preparation machine, comprising a suction pipe with which dust, fibers or dirt are sucked through a supercharger. The invention is characterized in that the dust, fibers or dirt can be transported directly or indirectly to the extraction channels (27, 57, 66) of the spinning preparation machine. The invention also relates to a spinning preparation machine and a method for cleaning a spinning preparation machine.
