Abstract (en)

[origin: WO2016168491A1] This disclosure generally relates to perforating guns used in a subterranean environment such as an oil or gas well. More particularly, it relates to fittings and retainers that aligns the detonating cord with a shaped charge installed in a charge tube. The embodiments disclosed have a retainer feature which allows for simplified installation with existing shaped charges and detonating cord. An apparatus and method for connecting a detonating cord with a shaped charge.
