Abstract (en)
[origin: WO2016174355A1] A protective system (100) for an aeroplane pilot, comprising: - a breathing mask (60) designed to supply the pilot with a respiratory gas, wherein said breathing mask (60) comprises an oxygen feed duct (62) intended to be connected to an aeroplane cockpit, - protective goggles (20) comprising a screen (22) intended to extend between the pilot's eyes and an external space (54), - a safety device (1) comprising a display device (10) and a support (30), - the display device (10) is able to display, notably in front of a pilot's eye, information intended to assist in the piloting of the aeroplane, and - the support (30) carries the display device (10) so as to keep the display of information in front of the pilot's eye.
