Abstract (en)
[origin: WO2016174344A1] The invention relates to a method for producing a pattern for investment casting, according to which at least one insert (10) is provided; at least two portions (12, 14) of the pattern are provided, said at least two portions being made of an eliminable material; and said at least two pattern portions are assembled in a tight manner around at least part of said at least one insert so as to form said pattern (16).
