Abstract (en)
[origin: WO2016174363A1] The invention relates to a combustion chamber of a turbomachine, comprising: an annular outer casing; and a flame tube connected to the outer casing, said flame tube comprising an annular inner wall and an annular outer wall defining a first, radial portion at the inlet of the flame tube and a second, axial portion at the outlet of the flame tube, the first portion extending towards the second portion forming an elbow between the inlet and the outlet of the flame tube.
