Abstract (en)
[origin: CN209377409U] The utility model discloses a shower partition plate (1), a kit and a bathroom installation system. The utility model relates to a shower panel (1) for mounting on a shower part (2) and on a buildingwall (3), comprising a front wall surface (4) and a rear wall surface (5) and side surfaces (6, 7, 8, 9) which connect the wall surfaces (4, 5), one of the side surfaces forming a bearing surface (6), and the other side surface connecting the bearing surface providing a connecting surface (7). Wherein the bearing surface (6) is oriented in an insertion position on a horizontal line (H) and the connecting surface (7) is oriented in an insertion position on a vertical line (V). In a corner region (10) where the support surface (6) and the connection surface (7) are in contact with each other, the shower panel (1) has a recess (11), which is designed in such a way that an already mounted sealing strip (12) protrudes from the recess (11).
