Abstract (en)

Control device and control method. A method for controlling pressure in a space (2) of a structure (1), the structure (1) providing a combustion appliance (3) with a combustion indicator, a first conduit (8; 12) with a flow meter (20, 27, 16, 25; 19, 23, 15, 21) operable to indicate fluid flow through the first conduit (8; 12) and a second conduit (12; 8) with a fluid mover (15, 21; 16, 25) operable to control or to regulate fluid flow through the second conduit (12; 8), each conduit (8, 12) being in fluid communication with the space (2), the method comprising the steps of: obtaining a first value (28) of fluid flow through the first conduit (8; 12) from the flow meter (20, 27, 16, 25; 19, 23, 15, 21), obtaining from the combustion indicator a signal (34) indicative of whether the combustion appliance (3) is in operation.
