Abstract (en)

[origin: WO2016177755A1] A child car seat comprising a seat (3) carrying guiding elements (4) for guiding an abdominal strap of a seatbelt of a vehicle, intended to hold said child in said seat. Such guiding elements are movable in a first direction, referred to as direction X, corresponding substantially to the main axis of the vehicle, and in a second direction, referred to as direction Y, perpendicular to direction X, directions X and Y being substantially comprised in the plane of the seat.
