Abstract (en)

[origin: WO2016177428A1] The present invention relates to a handle-assembly (1) for use in a household appliance (2), in particular a refrigerator (2) which comprising a door (3) with a panel (4). The handle-assembly (1) comprises an elongated handle member (5); and two support members (6) which are adapted for attachment to the panel (4) and further adapted to support the handle member (5) at both ends respectively. The handle-assembly (1) of the present invention further comprises two snap connections (7) which are adapted to connect the two support members (6) with the handle member (5) respectively.
