Abstract (en)
[origin: WO2016177360A1] The invention relates to a protective cap for an attachment housing. The protective cap (1) has a basic shape which is substantially box-shaped. The protective cap (1) has a first locking means on the narrow faces (2) of the box-shaped basic shape, and the protective cap (1) has a second locking means on at least one broad face (4) of the box-shaped basic shape. The invention likewise relates to a system consisting of such a protective cap and a matching attachment housing. The invention is characterized in that the locking means of the protective cap can be used with and without a locking bracket of an attachment housing.
