Abstract (en)
[origin: WO2016181363A1] A method for manufacturing a shaft (1) with shaped profile, the method comprising the steps of: - making a bar (2) which extends along a first axis (A1); - making an annular element (3) having an opening (10) about a second axis (A2); - depositing material (24) on the bar (2) so as to form a coupling stretch (5); - inserting the annular element (3) on the bar (2); and - fixing by interference the annular element (3) on the bar (2) in the coupling stretch (5).
