Abstract (en)

[origin: WO2017021457A1] The invention relates to a rail vehicle (1), comprising at least one driver's console which is designed as at least one driver's desk table (2) equipped with operating and display devices (3). The driver's desk table (2) is movably mounted between two end positions, wherein, in one end position, the operating and display devices of the driver's desk table (2) are inaccessible and, in the second end position, the driver's desk table (2) is in a use position.
