Abstract (en)

[origin: WO2016181176A1] The present invention related the use of hydrolysate of alginite and hydrolysate of vermicompost or derivatives thereof as fertilizer and/or plant conditioner. The hydrolysates prepared by basic or acidic treatment of alginite or vermicompost separately or the mixture thereof. The mixture of hydrolysates or the mixtures of dried hydrolysates can be used as fertilizer or plant conditioner thereof. According to advantageous embodiment the hydrolysates together or separately are absorbed onto a solid carrier and the thus obtained solid particles are granulated or formed into suspension or suspoemulsion.
