Abstract (en)
A a sanitary space, comprising: - a floor; - upright walls along the periphery of the floor; - a pre-wall arranged in front of a wall, wherein a secondary space is formed between the wall and the pre-wall; - a flush basin, such as a toilet bowl, arranged close to or against the pre-wall; - a flushing reservoir placed in the secondary space and connected to the flush basin; wherein a service opening is arranged in the pre-wall, which service opening is positioned at least partially outside the projection of the flushing reservoir on the pre-wall such that access can be gained via the service opening to the secondary space around the flushing reservoir.
