Abstract (en)
[origin: WO2016188819A1] The present invention concerns a motor-compressor unit (10), particularly a subsea motor-compressor unit (10) comprising, housed in a single casing (50), a compressor (20) and a motor (30), further comprising, inside said casing (50), a washing apparatus (80) connectable to an external source of a washing agent for selectively washing specific target areas of said motor-compressor unit (10).
