Abstract (en)

[origin: US2016342934A1] The disclosure relates to a process for delivering a package comprising the following steps: purchasing a package, providing an address for the package, paying for the package; delivering the package to the address via a drone. The process can also include the steps of providing at least one short range signal, reading the short range signal by the drone; and then delivering the package to the short range signal.
