Abstract (en)

[origin: EP3299418A1] The present invention relates to a polyarylene sulfide resin composition with a low out-gas content, comprising: a polyarylene sulfide; and a phenoxy resin. The polyarylene sulfide resin composition of the present invention exhibits a low out-gas content and excellent tensile strength and metal adhesive strength, and thus can be useful as a resin-composition for preparing a product requiring molding precision.
