Abstract (en)
[origin: WO2016189168A1] The present invention concerns a device for packaging and applying eyeliner, comprising: - a container containing the eyeliner to be applied, and - an applicator tip (20) defining an application surface (25) for applying the eyeliner contained in the container, having at least one cavity (31) opening on the application surface (25) and being elongate along a longitudinal axis, the cavity (31) being bordered laterally by two walls (32), the free edges of which, on the application surface (25) side, are convex in shape about an axis perpendicular to the longitudinal axis of the cavity (31).
