Abstract (en)

[origin: WO2016188976A2] The invention relates to a transfer material for the dye-sublimation transfer method of an ink jet printing image, comprising a support and an ink receiving layer on the front side of the transfer material, wherein the ink-receiving layer is porous and the transfer material contains a barrier layer which is disposed either on the rear side of the transfer material or between the support and the porous ink-receiving layer.
