Abstract (en)
[origin: US2018094412A1] A faucet column and/or free-standing sanitary fitting with the faucet column includes a floor-side column end and a faucet-carrying column end, with at least one water conduit disposed within the faucet column, extending from the floor-side column end up to the faucet-carrying column end. The faucet column includes a supporting profile which extends from the floor-side column end up to the faucet-carrying column end, at least one cavity which encompasses the water conduit and extends from the floor-side column end up to the faucet-carrying column end and is provided by the supporting profile, and an enveloping element which surrounds the supporting profile.
