Abstract (en)
The invention relates generally to a basket of a pole used for skiing, walking, or running, for example. Poles are used for various sports, like skiing, walking, and running with small variations in the pole. Usually, a basket and a tip of the pole vary depending on the meant use. Problem of changeable baskets are the fixing of the basket to a shaft of the pole. A changeable basket (100) for a pole according to the present invention comprises a ring (102) arrangeable around a shaft (104) of the pole, a basket part (106) connectible to the ring (102), an upper closing ring (108) for fixing the ring (102) and the basket part (106) together, wherein the ring (102) comprises a number of pins (116) and the shaft (104) comprises complementary openings (112), wherein the pins (116) are arranged to be against the shaft (104) and to fit into the openings in the shaft (104) for fixing the ring (102) onto the shaft (104).
