Abstract (en)

[origin: WO2017001055A1] The invention relates to a method for changing the geometry of an edge (24) of a portable data carrier (12), wherein the geometry of the edge (24) is changed in order to process the edge (24) and the outside (26, 28) of the data carrier (12) proceeding from a common side without a spatial position of the data carrier (12) being changed.
