Abstract (en)

[origin: WO2017001104A1] The invention relates to a method for uploading data of a motor vehicle, comprising the steps of: detecting surroundings data of the motor vehicle using a sensor device (10); producing a geographical reference for the surroundings data that have been detected; evaluating the detected surroundings data by comparing the detected surroundings data to known surroundings data of a data memory (42) of a server device (40); and uploading the detected surroundings data to the server device (40) depending on the evaluation.
