Abstract (en)
[origin: EP3321213A1] Soluble products capsule (1) with a closure sheet (6) on a first end (1.1) and pressurisation channels (4) for the product and an exit opening (5) on a second end and which comprises an isolation sheet (7) on the pressurisation channels (4) and an intermediate sectorising piece (8) of the internal cavity (2) with a base (8.1) and two or three sectorising walls (8-2) emerging in a radial layout that divide the cavity into sectors (9). The base (8.1) comprises a passing opening (11) for the product in each sector (9) and the pressurisation channels (4) are independent and form a route for the product from the outermost point of the pressurisation channels (4) in each sector (9) to the central exit opening (5) of the second end (1.2) of the capsule (1).
