Abstract (en)

[origin: EP3321419A1] The present invention discloses a multi stage washing column (20) with - a gas inlet (21) for introducing a gas into the multi stage washing column (20), - a gas outlet (22) for exiting the gas out of the multi stage washing column (20), - a hot liquid inlet (23) for introducing liquid into the multi stage washing column (20), - a cold liquid inlet (25) for introducing liquid into the multi stage washing column (20), and - a liquid outlet (26) for exiting the liquid out of the multi stage washing column (20), wherein in a mounting position of the multi stage washing column (20) the cold liquid inlet (25) is positioned above the hot liquid inlet (23). Moreover, the present invention discloses a device (100) for drying wetted material (WM) comprising a corresponding multi stage washing column (20).
