## Abstract (en)

[origin: WO2017157804A1] The invention relates to a garment (10), in particular a protective vest, the size of which is adjustable. According to the invention, at least one outer zipper (12) having two rows of teeth (14, 16) is provided, wherein in a closed state of the outer zipper (12), the garment (10) has a first size, and in an open state of the outer zipper (12), said garment has a second size. The first size is smaller than the second size, wherein in the open state of the outer zipper (12), the rows of teeth (14, 16) are held together at a distance by material (18), which in the closed state of the outer zipper (12) is covered by the outer zipper (12). The invention further relates to a zipper assembly.
