Abstract (en)  
[origin: WO2017008922A1] The invention relates to an ink transfer medium (1), in particular a printing blanket (1), in particular a printing blanket (1) for flexography, comprising a top layer (10) for transferring an ink by means of a printing side (11) and an adhesive layer (16) for fastening the ink transfer medium (1) to a substratum, in particular to a cylinder of a printing machine. The ink transfer medium (1) is characterized by a carrier layer (15), which is arranged between the top layer (10) and the adhesive layer (16), wherein the adhesive layer (16) is arranged directly on the side of the carrier layer (15) facing away from the printing side (11), wherein the carrier layer (15) is a film (15).
