Abstract (en)

[origin: KR20170045101A] Provided are an electronic device sharing a content with an external device and a sharing method thereof. The electronic device according to the present disclosure determines at least one content executable in the external device among a plurality of contents based on function information of the external device connected to the electronic device and the kind of the plurality of contents included in a web document which is received, if the web document including the plurality of contents is received, and transmits information about the determined at least one content to the external device. Accordingly, the present invention can improve usability of users who use content sharing technology.
