Abstract (en)

[origin: CA2993879A1] The invention relates to an assembly adhesive tape (10) for the printing industry. The adhesive tape comprises a foam layer (1), a reinforcing carrier layer (2) arranged on the foam layer (1), and a first adhesive layer (3) arranged on the carrier layer (2). The carrier layer (2) has a tensile value of a force of at least 1 N at 1% elongation in the longitudinal direction and, at the same time, a resistance to tear propagation of more than 0.2 N in the longitudinal direction and/or transverse direction. The invention further relates to the use of the assembly adhesive tape (10) for the printing industry.
