Abstract (en)
[origin: WO2017017128A1] The present invention relates to a composition, comprising A) a photo-curable component; B) a photo-initiator; and C) a polymer-containing coating, wherein the component A is physically mixed with component C, or is chemically bonded to the polymer of component C. The present invention further relates to a process for preparing the composition and a process for applying the composition, and the coating film obtained therefrom.
