Abstract (en)

[origin: EP2760089A1] The system (10) has a towing vehicle plug connector (30) and a trailer plug connector (50) that are provided for cooperating electrical transmission portions for the transmission of data and/or energy from one plug connector to other plug connector. A magnet assembly is provided with a magnetic element (46) arranged on one of plug connectors. A magnetic counter-element (66) is arranged on other of plug connectors for applying force to plug-in projection on a plug-in receptacle (35) toward the plug axis (S) and/or in the sense of a torque to the axis.
