Abstract (en)
[origin: EP3332981A1] First driven gears (4a - 6a) of the driven gears of number wheels (4 - 6) mesh with first driving gears (26), and second driven gears (10a - 12a) of the driven gears of number wheels (10 - 12) mesh with second driving gears (28). The first driving gears (26) are fixed to first driving shafts (25), and the second driving gears (28) are fixed to second driving shafts (27). The first driving shafts (25) are located on the same axes as the second driving shafts (27). The second driving shafts (27) are connected to intermediate shafts (29) by gear coupling. The intermediate shafts (29) are arranged on an outer side of the second driving shafts (27) in the radial direction of the number wheels (3 - 12) .
