Abstract (en)

[origin: WO2017029107A1] The invention relates to a hair treatment means, containing at least one compound of general formula (I) in a cosmetic carrier (a), wherein R1 represents a hydrogen atom or a structure element of formula (II), and M1 represents the grouping OM2 or a structure element of formula (III). Further objects of the invention include a kit containing at least two separately produced preparations, wherein one of the preparations is said hair treatment means, as well as a method for colouring and/or lightening hair, in which the hair treatment means is used.
