Abstract (en)

[origin: WO2017029096A1] Exemplary embodiments relate to a device (10) for a vehicle (100) for providing information about an expected driving intention, device (20) for a vehicle (200a) for determining a driving recommendation, a method for a vehicle for providing information about an expected driving intention, a method for a vehicle for determining a driving recommendation and a computer program. The device (10) comprises a driving analysis module (12) designed to determine information about an expected trajectory of the vehicle (100). The device (10) also comprises a control module (14) designed to determine information about an expected driving intention of the vehicle (100) on the basis of the information about the expected trajectory of the vehicle (100). The device (10) also comprises an interface (16) designed to make available the information about the expected driving intention for one or more vehicle-external entities (200).
