Abstract (en)

[origin: WO2017029220A1] The invention relates to a method for determining a roadside parking space comprising the following steps: a start position and an end position of the parking space is determined, the parking space extending between the start position and the end position; position of a course of the road in the region of the start and the end position of the parking space is determined; the position of the parking space is imaged with respect to the course of the road such that the imaged parking space extends directly adjacent to the road.
