Abstract (en)
[origin: WO2017028844A1] The invention relates to a plug-in connector (1) which has a plug-in connector housing (2), an insulating body (3) and a contact (4). The plug-in connector (1) is rectangular and is designed to be mounted on a device wall or on another surface. The contact (4) of the plug-in connector (1) is also rectangular and in the form of a single piece. A two-part insulating body (3) which is placed in the plug-in connector housing (2) from two directions is necessary for assembling the plug-in connector (1).
