Abstract (en)

[origin: EP3339195A1] An apparatus (600) is described for cutting and applying a portion (601) of adhesive tape (602) over a bag (2) containing foods for fixing an upper flap (502) with which it is provided, said apparatus (600) comprising at least one spool (603) of said adhesive tape (602) arranged on an idle wheel (604) and at least one motorized roller (607) for unwinding the adhesive tape (602) from said spool (603). The apparatus (600) comprises moving means (629) of an applicator (630) provided with a cutting blade (631), said applicator (630) being configured to cut said portion (601) of adhesive tape (602) by said cutting blade (631) and simultaneously to apply said cut portion (601) onto said upper edge (502) of the bag (2).
