Abstract (en)  
[origin: WO2017037164A1] The invention relates to a drinking glass, which contains a bottom (3) and a wall and can be detachably placed onto the upper end of a beverage bottle (1) in the opposite direction, wherein the wall of the drinking glass (2) at least partially surrounds the beverage bottle (1). According to the invention, the inside of the wall of the drinking glass (2) follows the outer wall of the beverage bottle (1) at a slight distance over the entire height of the drinking glass (2). The drinking glass is able to hold substantially the entire content of the beverage bottle. The drinking glass (2) can be fastened to and detached from the lower end of the beverage bottle at the opening rim of the drinking glass.
