Abstract (en)

[origin: WO2017036450A1] The invention relates to a holding frame (1), into which plug connector modules (19) can be inserted, wherein the holding frame (1) consists of two halves (4, 5) that can be articulated to each other, a first half (4) and a second half (5), wherein the holding frame (1) has at least one first locking element (7) and wherein the second half (5) of the holding frame (1) has, at an end face thereof, a pin (14) and the locking element (7) has at least one recess (12, 12'), wherein the pin (14) can engage in the at least one recess (12, 12') and the halves (4, 5) can thereby be fastened in an open position or in a closed position.
